The screenshot displays the BioRender web application interface. At the top, there is a navigation bar with the BioRender logo, the user's name '王's First Illustration', and icons for cloud storage, undo, and redo. A button labeled 'Edit canvas' is also present. On the right side of the top bar, there are icons for user profile, a virus-like icon, a chat bubble, a camera, and a 'Share' button. The main area is a large white canvas labeled '10 x 7 in'. On the left side, there is a vertical toolbar with icons for AI, Search (circled with a blue 2), Uploads, Text (circled with a blue 3), Lines (circled with a blue 4), Shapes (circled with a blue 5), Table, Graph, More, and Edit. The canvas itself contains five numbered text items in Chinese, each preceded by a circled number. At the bottom right of the canvas, there is a dark grey bar with the text 'Created in BioRender.com' and the BioRender logo. Below the canvas, there is a link that says 'How do I remove the watermark ?'.

①编辑画布功能：可调整画布大小，背景颜色等；

②搜索功能：可搜索要画的细胞器、细胞膜的模板；

③文本功能：可点击输入文本；

④线条功能：可插入各种线条、箭头；

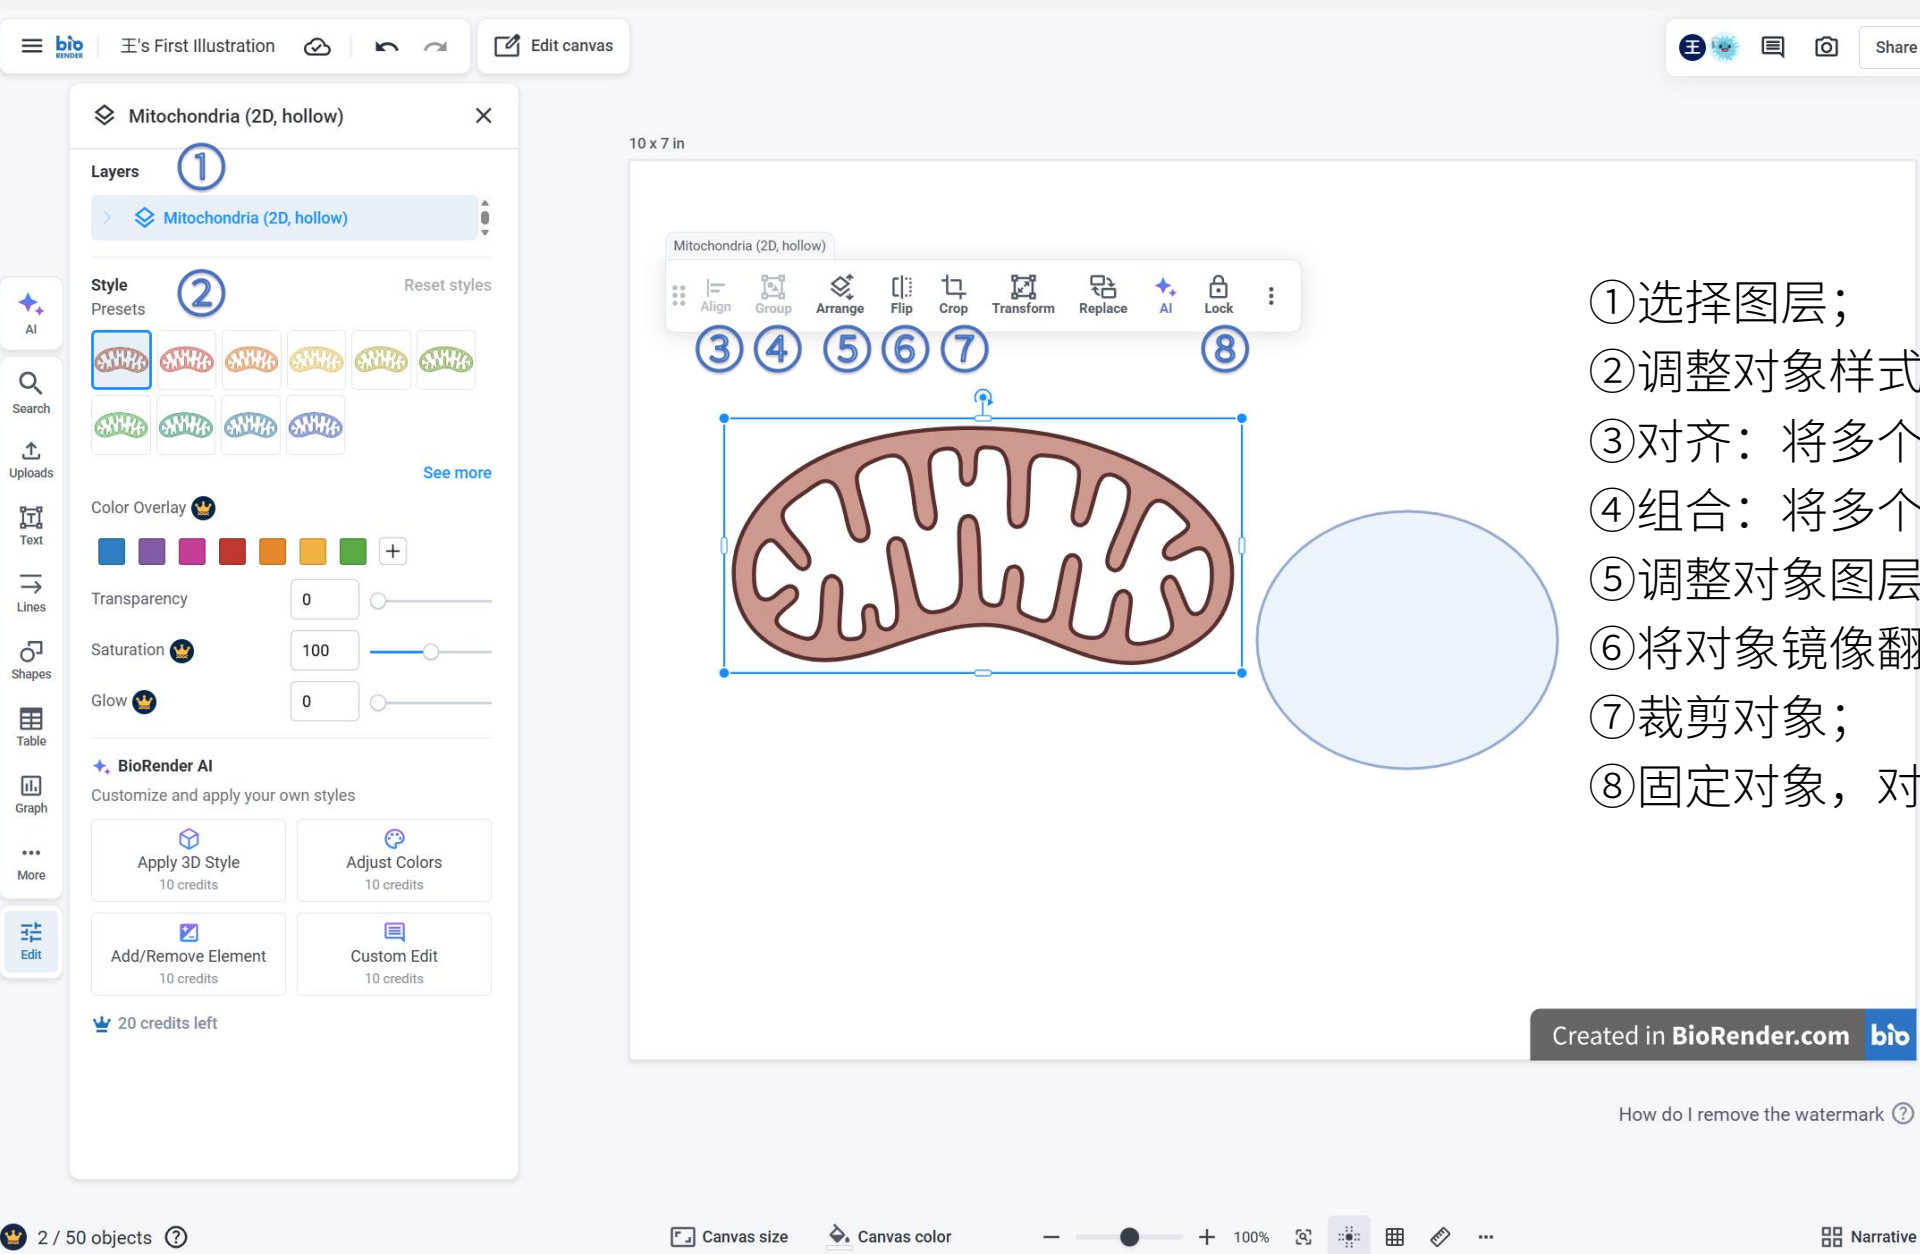

⑤图形功能：可绘制不同的图形，包括图形中加文字。

03.绘图思路示例

临床创新2501王鹏宇

1.颜色协调：配色要相互包容，一条通路最好选取同一色系的颜色进行搭配；

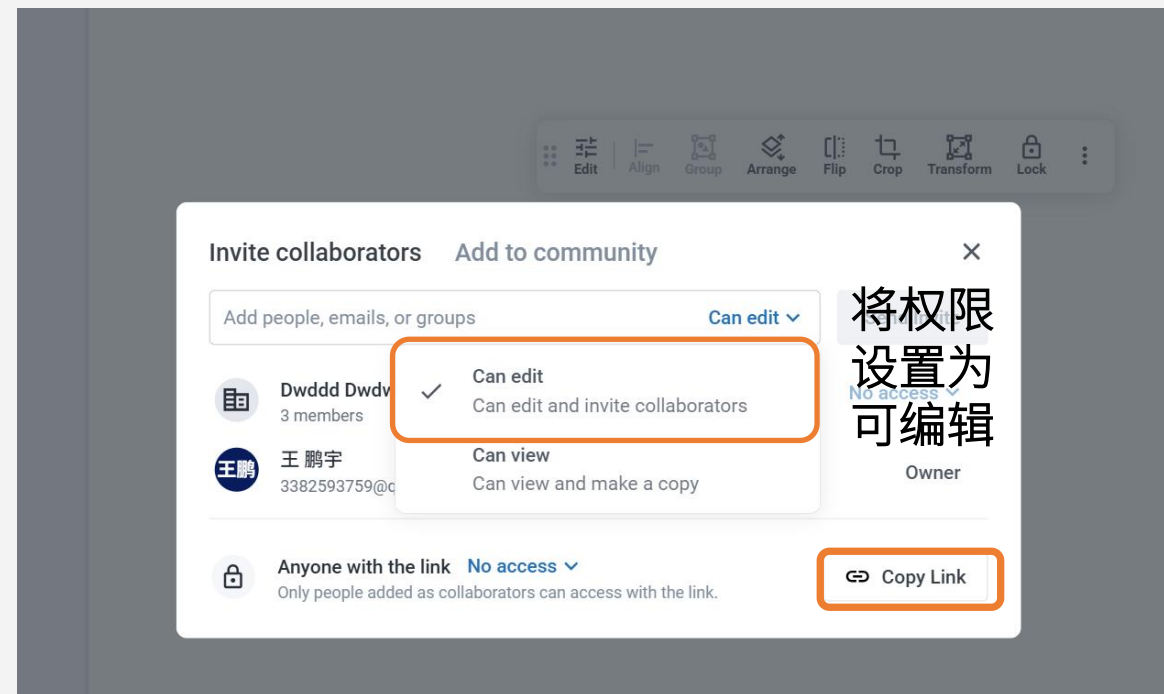

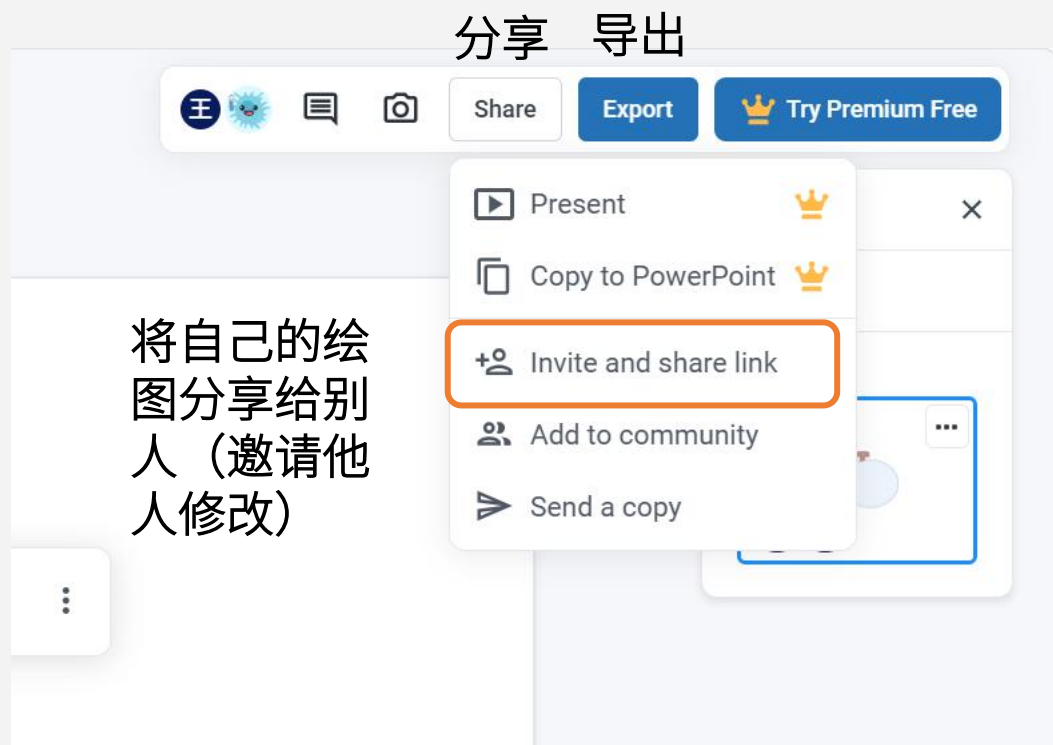

2.格式统一：字体大小、线条粗细虚实等都要统一；

3.重点强调：属于一个通路的可以用虚线框来强调，研究的重点对象也要用明显的颜色加以强调。

4.区域分配：作图前首先要对画布的区域进行分配，规划好每一部分中包含的内容。
